# Oh Shit – Weekly Summary

\*Loss of equipment, no injury

Severity of Crash\*

# Oh Shit Criteria Review

- A fall is a fall – no sit downs, no ‘technical issues’
- Bad falls resulting in serious injury are not included
- There is no minor fall
- Bruised egos do not count as a serious injury
- Same rules – check on the person – Are they okay
  - Not okay – assist and comfort
  - If okay – then pictures, mocking and ridicule are okay
  - Use your judgement –
- a fall is fall – can be spectacular or well embarrassing  
good falls I will try and note with comments.
